

Ice pebbles 250kg/24h Ice pebbles maker, air-cooled

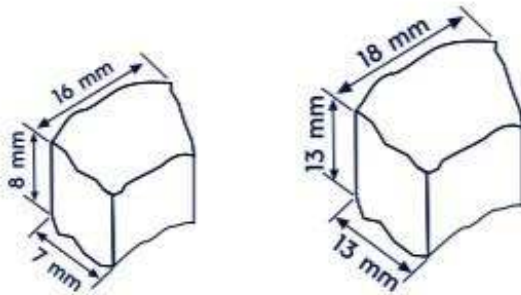

ITEM # _____

MODEL # _____

NAME # _____

SIS # _____

AIA # _____

730270 (IP250)

Ice Pebbles Maker, 250 kg/24h, bin not included, air-cooled

Short Form Specification

Item No. _____

Plastic flap on the front, top and sides in 304 AISI stainless steel.

The ice-making method guarantees low water consumption and hygienically pure ice pebbles that are resistant to melting. R290 refrigerant.

Main Features

- Air filters are easily removable and cleanable without tools.
- AISI 304 stainless steel evaporator ensures a safe contact with ice.
- The water basin, sealed and hermetic is a barrier for dust and impurities.
- Electronic sensor continually monitors the rotation speed to ensure machine efficiency.
- Height adjustable stainless steel feet.
- Compliant to CE requirements for safety.
- Fully automatic in operation.
- Operates over a wide range of temperatures.
- Suitable for gravity drain only (no pumps needed).
- Rated output is at an ambient air temperature of 21° C and water supply temperature of 15°C.
- Compact dimensions of the ice cubers make them highly suitable for any location, particularly those where space is at a premium.
- Model available in air-cooled version.
- Reduced energy consumption by fully insulated storage bin.
- The ice making method guarantees a continuous and reliable production.
- Little cone shape with irregular slightly crushed sides.
- CFC and HCFC free, highly ecological refrigerant type: R290 (ecological gas in foam: cyclopentane). Hydrocarbon refrigerant gas R290 for the lowest environmental impact (GWP=3), to reduce green house and ozone depletion effects.

Construction

- Rounded internal corners for ease of cleaning.
- Easy access to the main components for maintenance.
- AISI 304 stainless steel exterior.
- Stainless steel spray arms removable without the use of tools.
- Reliability guaranteed by the quality of the construction materials used (plastic flap on the front, top and sides in 304 AISI stainless steel) and the sophisticated product and process technology involved.
- The inox sprayers are easy to take away, permit a simple flowing and prevent limestone formation.
- Internal ice cubes container in ABS.
- ON-OFF rocker switch.

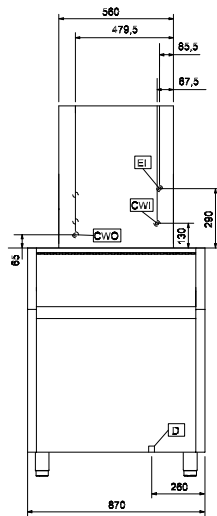

Optional Accessories

- 200kg stainless steel collection bin for Ice Makers PNC 730170

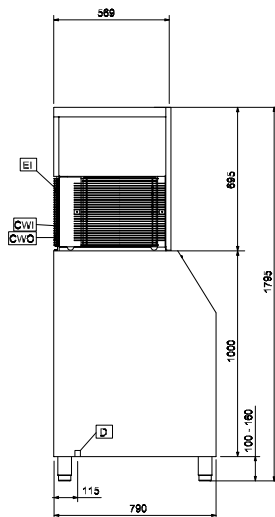

APPROVAL: _____

Front

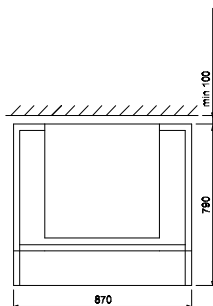

Side

- CWI = Cold Water inlet 1 (cleaning)
- D = Drain
- EI = Electrical inlet (power)

Top

Doc No : ID730270

Electric

Supply voltage:

730270 (IP250) 220-240 V/1 ph/50 Hz

Electrical power max.:

1.05 kW

Key Information:

External dimensions, Width: 560 mm

External dimensions, Depth: 569 mm

External dimensions, Height: 695 mm

Net weight: 83 kg

Output: 245 kg/day
